

ENVIRONMENTAL POLICY

Plumbrite Solutions Pty Ltd is committed to the protection of the environment. We are resolved to progressively reduce the environmental impact of our operations by reducing waste, discharges and emissions, and using resources and energy more efficiently.

Whatever and wherever we operate, we will strive to:

- Comply with all laws and regulations, including but not limited to relevant EPA regulations, any local council development application consent conditions and any additional customer requirements relating to the environment.
- Minimize any adverse environmental impacts and pollution.
- Fully integrate environmental considerations into new and modified, plant, processes or services.
- Design our processes in such a way as to minimise their environmental impact.
- Ensure our employees are appropriately trained and work in an environmentally responsible manner.
- Adopt sound procedures, work practices and training to ensure employees awareness and compliance with environmental requirements.
- Measure our environmental impacts and set goals for improvement.
- Maintain good relations with our neighbours, the community and regulators.

We are committed to establishing measurable objectives and targets to ensure continued improvement aimed at client satisfaction, safe work practices and minimising environmental impact and achieve this by regular monitoring, training and management meetings.

The Director of Plumbrite Solutions Pty Ltd, Tyson King, is committed to working with all Employees and subcontractors to ensure that this policy is communicated, understood, accepted and successfully implemented by all employees and contractors. Management and employees are encouraged to offer suggestions about how environmental protection measures can be improved. Such suggestions will be assessed by Plumbrite Solutions Pty Ltd management and implemented as appropriate.
